

Brief history of the AGATA Management Board (AMB)

This document was written by John Simpson in September 2021.

Updates:

- Nov 2021 / Johan Nyberg: edited for publishing on the AGATA website.

November 2002

From the minutes of the meeting when the first AMB was proposed, 2002-11-14/GSI:

Project Manager:	John Simpson (Daresbury)
Members of the AMB:	Dino Bazzacco (INFN Padova)
	Gilbert Duchêne (IReS)
	Jürgen Eberth (University of Köln)
	Reiner Krücken (TU Munich)
	Johan Nyberg (Uppsala University)
	Wolfram Korten (CEA Saclay)
	Andres Gadea (INFN LNL)

January 2003

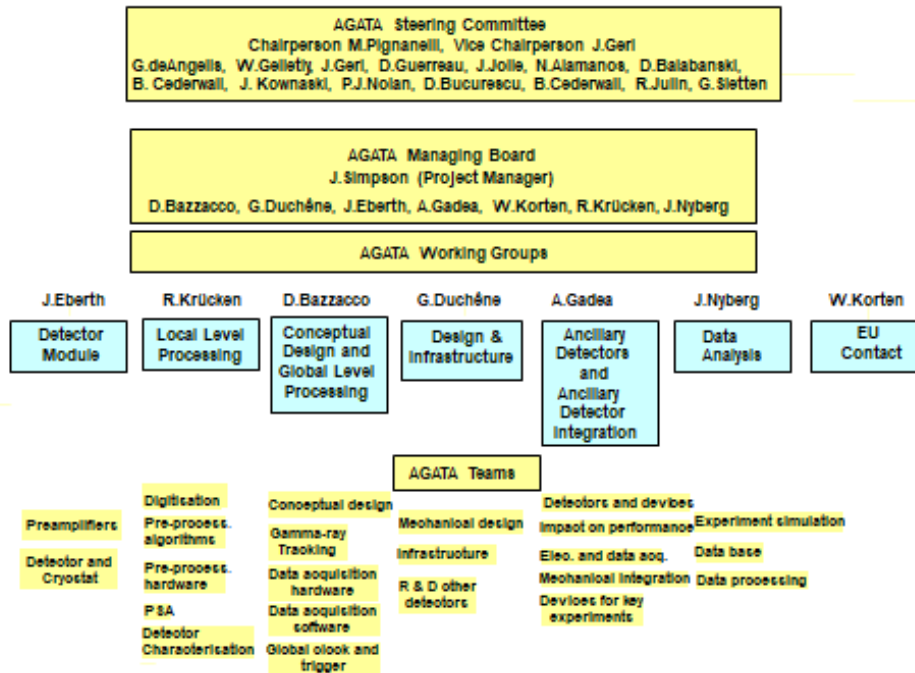

First AMB Meeting 2003-01-07/GSI

The following structure of the working groups was agreed on:

A)	Detector Module (DM)	J. Eberth
B)	Local Level Processing (LLP)	R. Krücken
C)	Conceptual Design and Global Level Processing (GLP)	D. Bazzacco
D)	Design and Infrastructure (D&I)	G. Duchene
E)	Ancillaries and Ancillary Detector Integration (AD)	A. Gadea
F)	Data analysis (DA)	J. Nyberg
G)	EU contact	W. Korten

AGATA TEAMS and TEAM LEADERS

Detector Module Working Group, Chairperson Juergen Eberth.		
Detector module and cryostat		leader D. Weishaar
Preamplifier		leader A. Pallua
Detector performance, Chairperson Reiner Krucken.		
Pulse shape analysis team		leader R.Gemhauser/P.Desesquelles
Detector characterisation team		leader A. Boston
Data Processing, Chairperson D.Bazzacco		
Digitisation		leader P.Molina
Pre-processing algorithms		leader W. Gast
Pre-processing hardware		leader I.Lianous
Global clock and trigger		leader M.Bellio
Data acquisition		leader X.Grove
Run control and GUI		leader G.Maron
Ancillary detectors and ancillary detector integration, Chairperson A.Gadea.		
Ancillary detector impact on AGATA performances		leader Ch.Theisen
Electronics and data acquisition integration		
Mechanical integration of ancillary detectors and devices in AGATA		leader N.Redon
Ancillary devices for the key experiments		
Other team leaders are to be identified.		
Design and Infrastructure, Chairperson G.Duchêne.		
Mechanical design		leader K.Fayz/J.Simpson
Infrastructure		leader P.Jones
R&D on other Ge detectors.		leader D.Curien
Data Analysis Working Group, Chairperson Johan Nyberg.		
Physics and event simulation of key experiments		leader E. Farrer
Detector data base parameters		leader K.Hauschild
Gamma-ray tracking		leader W.Lopez-Martens
Data processing (on-line/off-line analysis, etc.)		leader O.Stozowski
